

Gja d`Y`'`ghYd'dfcWYgg

Extract data from SAP quickly by following a simple 3 step process:

1. Record a transaction using the standard SAP GUI. (Optional)
2. Create Query (Manually or automatically)
3. Download data immediately or schedule a upload at a convenient time.

FYWcfX]b[`DfcWYgg

Build your query or report by stepping through a SAP transaction in the standard SAP GUI. Qubed will automatically [[[\A~]Ac@^Ac!æ} •]æ!^}c!cæà|^!æ}âÁ, ^|âÁ- [!Á any structures used in the recording process.

7YbhfU`]nYX`5X a]b]ghfUh]cb

Provides a simple mechanism to administer the permissions for each Qubed user.

GW\YX i`YX`9IYWi h]cb

SAP data downloads can be scheduled to execute when the SAP systems are least busy.

: f]YbX`m`BU a Yg

Optionally shows the user-friendly de- •&!â] cá [} •Á- [!Áæ||Á, ^|âÁæ}â!cæà|^!æ} •É

E i Yfm`C i h d i h`@] a]hUh]cb

Limit the number of records that a user can extract from SAP using Qubed.

E i Yfm`7c a d`YI]hm`FYghf]Wh]cbg

Set limits on the complexity of the queries each user can create.

5XX]h]cbU`5dd`]WUh]cb`GYW i f]hm

Qubed can restrict users from accessing data in certain tables even if the user has •~-, &â^}c!UCEU!æ`c@ [!â:æcá [} •É

6fcUX`HUV`Y`G i ddcfh

Allows data extractions from both standard and custom SAP tables. Qubed even deals with cluster and pool tables. Only System tables are excluded.

A i`h]d`Y`:]Y` : cf a Uhg`

Data can be extracted to Excel or Access and reports can easily be deployed as PDF, TIFF, HTML or XLS.

DckYfzi``FYdcfh`Kf]hYf

Qubed provides the user with an easy to use but powerful report writer to create simple or complex reports with a polished look.

FYdcfh`HY a d`UhYg

Users can create report templates that can be used to create reports in a particular format.

7YbhfU`]nYX`5X a]b]ghfUh]cb

Provides a simple mechanism to administer the permissions for each Qubed user.

:`YI]V`Y`@]WYbg]b[

Lets you choose from a licensing model that suits your individual requirements

:`YI]V`Y`Df]W]b[

Gives you the full functionality of Qubed for a set number of months. This allows ^ [~Ac[Á ~ •^Ac@^Á]! [â~&cá [}Á •] ^&â, &Á]! [b- ects where mass data downloads from SAP are required.

?Ym`6YbYUhg

- ~Á Reduces costly IT resource requirements.
- ~Á Empower data owners to manage their own data
- ~Á Improved data quality
- ~Á Provides ad-hoc extraction and reporting functionality without any programming
- ~Á Uses familiar data management tools, eliminating additional training.
- ~Á Reduces time to extract and report on data in SAP by eliminating time necessary to create custom upload programs.
- ~Á Provides access to data without needing access to SE16 or SQ01.
- ~Á Allows for quick extract of data needed in other, non SAP systems.
